

Product ID: Plastic Filler
Product Name: ALSIPLAST
Quantity: 1 litre (6 per case)

ALSIPLAST – Plastic filler

One easy to use filler for all plastics

Most plastic fillers work on rigid plastics or semi-rigid plastics, but do not give very good adhesion to either of these surfaces. Alsiplast can be used on rigid, semi-rigid and even flexible plastics with excellent adhesion on all 3 surfaces. It is easy to use and gives maximum flexibility with superior results. It is also strong and versatile and will not shrink.

- Filler can be used on either Rigid, Semi Rigid or Flexible Plastics
- This unique filler provides maximum flexibility
- Strong and versatile
- Will not shrink
- Will not absorb moisture.
- Provides superior results
- Easy to sand
- Will not clog up the sandpaper
- Provides a quick finish to the job
- Saves a lot of time and labour

Applications:

Car bumpers, and plastics in interiors of cars, boats, RV's, computers, photocopying machines, etc. that have been damaged or cracked, children's toys, including industrial applications such as PVC windows, doors, fences, plastic furniture, garden furniture etc. and many other applications
