

Product ID: Plexiglass Cleaner & Scratch Remover
Product Name: CKLEAR707
Quantity: 250 ml

C-KLEAR 707 - Plexiglas Scratch Remover and Cleaner

Excellent compound for Plexiglas and old oxidized or painted surfaces

C-KLEAR is the ONLY product on the market will remove surface scratches from Plexiglass. Many products claim to do so, but will leave you clear surface fogged up because they use some kind of compound which may remove the scratches, but leaves a fogged surface behind. C-Klear was developed for the boating industry, to remove scratches and yellowing from the clear plastic surfaces, but with more and more applications in the automotive sector (tail lights and front beam lights etc.) our customers are finding it removes the scratches and leaves the surface clear to see again thus providing a very safe driving experience. Please see our list for the many other applications where it is being used.

- Easy on – Easy off
- Can be used by polishing machine or hand
- Excellent for removing oxidation
- Brings back the color of dulled paint
- Removes surface scratches from clear Plexiglas and other plastics.
- Professional product. Also ideal for the hobbyist and do it your selfer
- Removes scratches and makes surface clear to see through again
- Protects by sealing in the pores of the surface and keeping the contaminants out
- Extends life span of surface
- Antistatic
- Highly effective
- Outperforms all competitors

Only product that actually removes 80% of scratches up to 7 microns deep

Applications:

Great for automotive/marine/aircraft and other industrial uses on clear Plexiglas. On hockey visors, fire fighters visors, industrial Plexiglas on forklifts etc. Can also be used where normal lacquer cleaners fail. On old or oxidized painted surfaces of Cars, RV's, motorcycles, planes & boats etc. Also excellent for cleaning Plexiglas and other clear plastic surfaces in the home.
