

**Product ID: Adhesion Promoter for hard plastics**

**Product name: Plastikprep**

**Qty: Aerosols/Quarts/Gallons/Drums**

## **PLASTIKPREP - Adhesion promoter for hard plastics**

Helps Varikote and Rubberbond bond to polypropylene, TPO, EPDM and other hard plastics.

- Great for difficult to color hard plastics.
- Goes on easily
- Flashes off easily
- Also can be used under certain conditions on difficult leathers (those that have been impregnated with silicones)

### **Applications:**

Only for hard plastic surfaces that are not made out of PVC or ABS. To be sprayed on to hard plastic surfaces 5 minutes before spraying on Varikote or Rubberbond.
